등급유지테스트란?

Able believes that timely review is crucial. In this regard, a grade maintenance test is administered at the end of each half-semester course, with each unit receiving a grade for that unit. If a student fails to achieve a grade, appropriate feedback is provided to address any weaknesses. A retest is conducted and students must pass the final exam to receive a grade. To ensure thorough review, the questions are designed to be more difficult than those used in school exams (equivalent to those used in school competitions).
